The market leader

Reception building, Lüdenscheid

Busch-Jaeger is the market leader with over 125 years of history in the field of electrical installation technology. We have manufacturing plants at two sites in Germany and five in other countries.

The company is part of the ABB group and employs approximately 1,100 staff in Lüdenscheid and Aue. We export to more than 60 countries.

In partnership with craftsmen

Constant achievement during the continuous further development of our products is the essential factor in our successful existence on the market and the resulting close relationship with the electrical trade.

Busch-Jaeger products are only available from specialist electricians.

Products and Solutions

Solution-oriented ranges for success

solo®

Busch-triton®

Busch Watchdog

The range extends from the complete electrical installation program with switches, sockets, special devices, DIN rail mounted devices, dimmers and motion detectors to electronic high-tech products such as ABB i-bus® KNX and ABB Powernet KNX. These devices are available for the optimisation of energy and the convenient central control of electrical loads in the private and commercial sector. In total, the range encompasses 5,500 electrical installation products.

Busch-Jaeger products correspond to the high standard of quality stipulated in DIN EN ISO 9001.

Moreover, we have installed a modern, ecological management system which exceeds the high requirements of the international standard DIN EN ISO 14001.
